

# Set up:

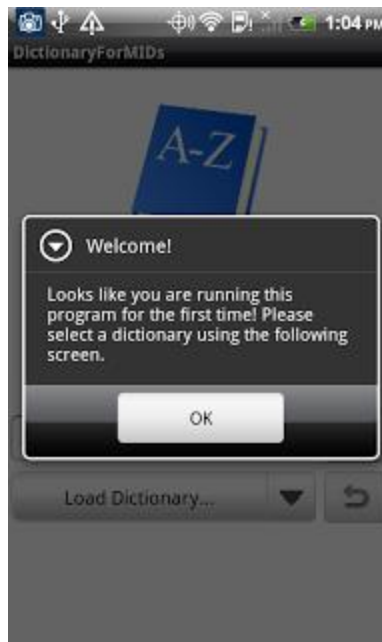

1. On your Android device, download the DFM Dictionary.zip file.
2. Unzip or extract files. This may be done differently on your device.

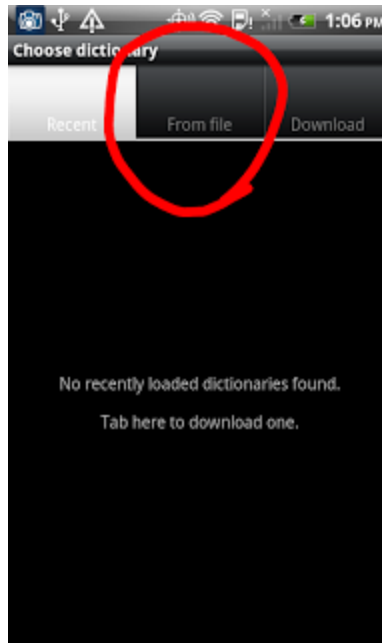

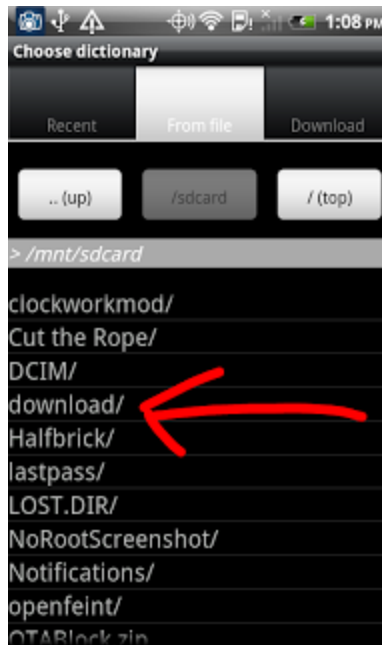

3. Install the DictionaryForMIDS app on your device.

4. Open DictionaryForMIDs and select “OK”

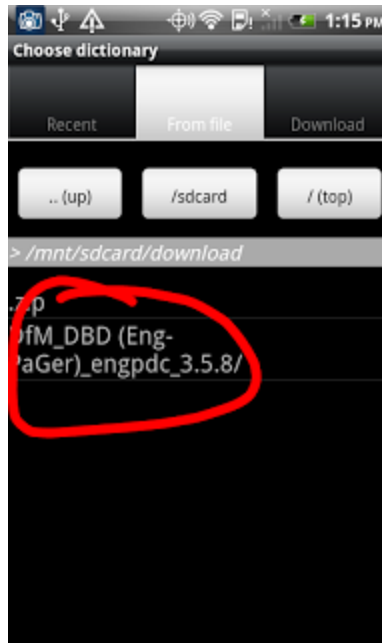

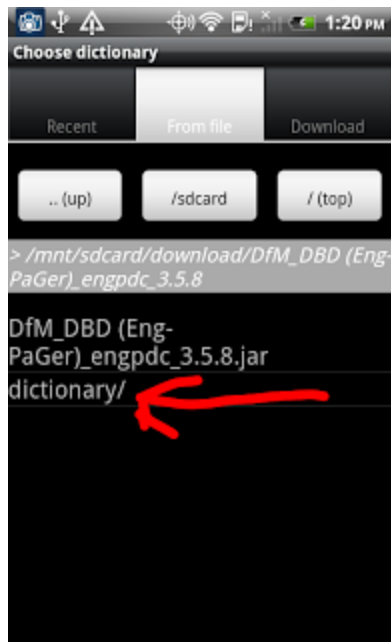

5. Select "From File"

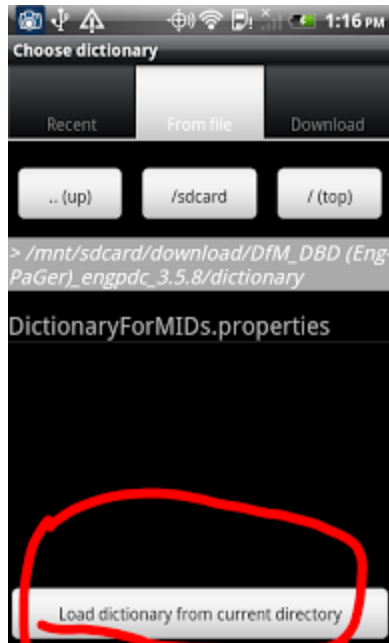

6. Select "download"

7. Select "DfM\_DBDicV (Eng-PaGer)\_engpdc\_3.5.8 "

10. Select "dictionary/"

11. Select “Load dictionary from current directory”

You are all set.  
Enjoy!!!!
